

# CHATEAU HAUT-BAILLY

CRU CLASSÉ DE GRAVES

## HAUT-BAILLY HOSPITALITY

At the doorstep of Bordeaux, atop a hillside that has been home to vineyards for over four centuries, Chateau Haut-Bailly welcomes guests year-round for private visits, hand crafted meals and customized receptions. In this unique setting, a place of sharing and passion, hospitality is a tradition. Wine lovers have always been welcome to Haut-Bailly. Since Robert G. Wilmers purchased the estate in 1998, major investments have made it possible to offer high-quality services in keeping with the elegance of the wines.

### Haut-Bailly's Private Table

Since 2009, Haut-Bailly opens the doors of its reception rooms for private dining prepared by the château's own Chef. Connoisseurs from all over the world enjoy tastings and fine cuisine, discovering the secrets of a great wine and the delights of French gastronomy. Jean-Charles Poinot, who trained at the "Ecole Supérieure Grégoire Ferrandi" in Paris, conducts an orchestra of fine foods to accompany Haut-Bailly wines. He composes harmonious, colourful dishes to suit each season, devoting as much care to his recipes as the cellar master does to the wines: constantly seeking the perfect pairings.

### Château Le Pape Luxury Guesthouse

Château Le Pape, set in a 9-hectare vineyard half-a-mile away from Haut-Bailly, is a haven of peace among the vines - a relaxing retreat for wine-lovers. The bedrooms (420 to 750 sq. ft. for the suite) offer a serene atmosphere, bathed in gentle sunlight, with views of the gardens. It is an ideal place to unwind, with a shaded patio and a swimming pool overlooking the vines...

### Tours & Tasting

The Château Haut-Bailly tour, covering the vineyard and vat room, as well as the barrel-ageing cellars, invites visitors to discover the Graves terroir and the secrets of making a great growth wine. It concludes with a tasting in the boutique of the estate.

### Large-scale receptions and working seminars

In 2004, the former barrel cellar was transformed into a reception area able to welcome professionals and enthusiasts in an elegant setting. Lunches and dinners for groups from 20 to 130 people are now served there. The surrounding landscape includes not only vines, but also green spaces and orchards, as well as terraces from which to enjoy the view.

In 2010, the château's hospitality services further developed thanks to the creation of a conference room with a capacity of 60 people. Furthermore, gourmet meals can now be adapted to seminars and other meetings. Overlooking the vines and bathed in natural light, this conference room offers a calm, studious atmosphere for seminars, workshops, etc. Complete, up-to-date audio-visual equipment is also available: screen, video projector, microphone, wifi access, etc.
